I Can't Believe It's True
Lyrics by Larry Stallman and Barry Oreck/ Music by Barry Oreck (BMI)

I once met a man who said the world was round;
as round as round can be.
He said the world was like a peach In its three dimensionality.
But I can't believe it's really true. There's the proof in front of you
Look at the line of brown and blue
It looks so flat to me.

Chorus
I just can't believe what I just can't believe
I can only believe what I see;
And I'll never believe that silly old lie,
That the truth will set me free.

I saw a tiger at the zoo, Blake's brilliant blazing beast;
A sign proclaimed that beautiful cat was soon to be extinct
But I can't believe it's really true; he seems so happy in the zoo
For this creature so distinct stared at me and blinked.

I read it in the papers that the planet's getting hot; hotter every day.
That storms will twist and the seas will rise and the bees will fly away.
But I can't believe it's really true; don't you see the things I do
All the facts must be askew 'Cause it snowed the other day.
Chorus (see what I believe)

I trust my gut and my two eyes, not some scientific lie
And the way to salvation is a leap of faith with my people by my side
Can't trust the press or FBI
The courts are rigged, the schools comply
They want my guns just let them try
This land is yours but mostly mine

Hey you just can't believe what you just can't believe
You can only see what you believe;
And don't ever believe that dirty old lie,
That the truth will set you. The truth will upset you
Yes the truth will set you free
